

The number 1 in clumping organic cat litter

millionfold
tried and liked

Thanks to JRS organic fibres completely natural:

Super odour stopper !!!

CAT'S BEST ÖkoPlus ensures greater hygiene naturally – unpleasant odours in your home are a thing of the past.

Thanks to the unique JRS ORGANIC FIBRE 700 TECHNOLOGY CAT'S BEST ÖkoPlus functions like a natural odour and germ trap:

Moisture and odours are absorbed quickly and long-term by the fibres' ultrafine capillary system. This stops odours developing over a long period of time – all without chemical additives !

That's why CAT'S BEST ÖkoPlus is:

Significantly more productive and efficient:

CAT'S BEST ÖkoPlus is significantly more productive and efficient than conventional clumping cat litter because liquid and odours are trapped ultra-effectively and long-term inside the organic fibres' capillary system.

This is why CAT'S BEST ÖkoPlus can remain in the litter tray for far longer: **the base contents lasts 4 - 6 weeks !!!** (> Simply remove clumps and hard excrement regularly using a special scoop)

Take the hygiene test with your cat !

The outstanding advantages:

Clumping ORGANIC Cat Litter

from 100 % natural organic fibres

Available in environmentally friendly paper bags: convenient 5 litre bag, handy 10 litre bag and economical 20 litre, 30 litre and 40 litre supply bags.

Easy to use plus simple hygiene:

Finally a cat litter that can be disposed of hygienically and easily in the normal household toilet* !

CAT'S BEST ÖkoPlus with naturally active hygiene pearls is made up of natural organic fibres. That is why soiled litter can be disposed of in the normal household toilet* similarly to toilet paper.

Please only put **single soiled litter clumps** into the toilet; allow to dissolve and then flush thoroughly.

*Be sure to check your local waste disposal regulations !

This reduces the material and work required to clean and fill the litter tray to a minimum. Giving you more time to enjoy your pet.

The natural
**ODOUR and
GERM TRAP**

More economical + efficient

Basic litter contents of the cat toilet can remain up to 4 - 6 weeks

Total odour control

No artificial, chemical additives !!!

Excellent absorption

More than 700% absorption
(conventional cat litter absorbs just approx. 200%)

Compostable and 100% biodegradable

Significantly less waste

Easier to transport

For the same output approx. only one third of the weight of mineral products !!!

Natural quality products
from JRS Animal Hygiene

THE ORGANIC Cat Litter
from 100 % natural organic fibres

100 % natural organic fibres

CAT'S BEST ÖkoPlus, the highly functional, fine organic cat litter, is a completely natural product – manufactured from 100 % renewable organic fibre raw materials without artificial and chemical additives. **CAT'S BEST ÖkoPlus is manufactured only from the finest untreated organic fibres.**

The wood fibres are sourced from domestic fir and spruce trees grown in sustainable forestry enterprises. By using this wood we help to maintain natural, healthy forests. CAT'S BEST ÖkoPlus is **PEFC certified**.

Parallel to this, our organic fibre products are subject to the **environmentally compatible, natural biological cycle** – from the plant seedling to the rotting biological decomposition product.

Compostable and 100 % biodegradable

This is a great way to reduce waste: As an organic fibre product CAT'S BEST ÖkoPlus is compostable and fully biodegradable.

Save expensive waste disposal costs – and protect the environment at the same time!

Naturally better:

JRS, J. Rettenmaier & Söhne has been producing litter products for the best animal care for three generations. The **CAT'S BEST, DOG'S BEST, CHIPSI** and **TierWohl** brands offer animal lovers in many European countries ecological and economical products that are subject to strict quality controls. JRS products are thus recommended by independent institutes and associations.
